## FEATURED PRODUCT

*Now available!*

### Adamus 10-Year Celebration in Santa Fe

There's nothing in the world like a big Shaumbra gathering! The energies were high, the hugs were abundant and the excitement was contagious. Nearly 250 Shaumbra from 27 countries gathered in Santa Fe, New Mexico in June to celebrate and commemorate our 10 years with Adamus. We laughed and cried, we ate and drank like there was no tomorrow, and we supported the local economy with lots of shopping. This streaming video of the event includes the historic Adamus "roast", inspiring presentations by Jean Tinder, Birgit Junker and the Rude Awakening team and much much more. Note: Some materials will be offered for free including the two Adamus channels. Just \$33 for the complete conference video streaming.

## COMING AUGUST 9

In ProGnost 2019 Adamus took a different direction when he talked about the Dragon coming into our personal lives, and to the planet. It's been the best-selling ProGnost and most talked-about ProGnost to date. Now, in the ProGnost 2019 Update, Adamus continues where he left off, and then goes way beyond. He talks about the radical changes coming to the planet in the next two decades, and reminds us once again why we're here. Even though it's a ProGnost Update, these two sessions stand on their own, perhaps the best future-view ever from Adamus. The first session is pretty tough, leaving the viewer with

lots of questions. In the second session, we took questions from the production team and posed them to Adamus. The information was insightful and uplifting. Then Adamus closed everything out with a transformational merabh. You don't want to miss the ProGnost 2019 Update even if you haven't viewed ProGnost 2019. Only \$44 through November 9.
