FEATURED ONLINE OFFERINGS

Sexual Energies School Online -

- Learn about the sexual energy virus and how it affects your life
- Create your own path to self-love, and allow the return to joy
- Discover the futility of power games
- Learn how to stop others from depleting your energy, or you taking theirs
- Improve your relationships, health and well-being through personal energy management
- Considered the "core" Crimson Circle class
- Live hosted with Geoffrey and Linda Hoppe

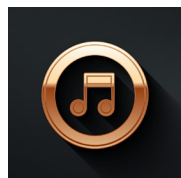

Keahak XIII - For the past 12 years, the Keahak program has been about preparing us for what happened on March 22, 2023. These advanced sessions, delivered two times per month by Adamus, dive deep into the nature of reality and the metaphysics of Creation. Now, Adamus will be taking Keahak in a new direction. Keahak XIII will focus on how to gracefully bring these higher levels of consciousness in your life; how to stay in communications with your Soul; how to gently integrate your Free Energy Body (Light Body); and how to live as embodied Masters at a time when the planet needs it the most.

The Threshold Online - According to Adamus, what one experiences in the Threshold workshop is something every single Ascended Master has gone through. It is the final step before Realization. This profound material now is offered as an online class, with easy access for Shaumbra around the world. The Threshold deals with the struggles and challenges as you come to Realization. Many Shaumbra have waited lifetimes for this moment, yet still have difficulties making the final step. The dragon will not allow anyone

into Realization if you still hold any vestiges of guilt and shame. Adamus notes that, "Threshold is the last thing you do before Realization."
